### Provisions regarding the fund order form, signature

**Important:** The fund units purchase cannot be executed if you have not been advised by a PostFinance customer advisor or if the "Investor profile self-certification – annex to the order form for an investment fund with the vested benefits account" is not enclosed with this order. PostFinance recommends arranging a personal consultation when investing in retirement funds.

I confirm that I have read and accepted as binding the Rendita terms and conditions, the brochure "Risks Involved in Trading Financial Instruments", the product description "Retirement fund with the vested benefits account", as well as the key information document (KID) and the relevant fund contract. The documents can be obtained at [postfinance.ch/retirementplanning-information](http://postfinance.ch/retirementplanning-information). PostFinance does not conduct an appropriateness test or a suitability test on orders through "Investor profile self-certification – annex to the order form for an investment fund with the vested benefits account". This order is submitted without a consultation. The fund investment policy described matches my investment target, my financial situation, my knowledge and experience as an investor and my risk capacity. I am in a position to bear any losses which could arise from investing in funds. I am aware that Rendita and PostFinance assume no liability for any securities losses and that I bear the risk alone. The PostFinance Pension 25, PostFinance Pension 45 and PostFinance Pension 75 retirement funds are issued in accordance with Swiss law and are funds for qualified investors. The PostFinance Fonds Pension 25 and 45 meet the requirements of BVV2. Based on article 50, paragraph 4 of BVV2, the equity component of PostFinance Pension 75 is higher than that of traditional retirement funds. The PostFinance Pension 75 retirement fund is therefore only suitable for investors with the relevant risk capacity and risk appetite. I acknowledge and accept that PostFinance may receive remuneration from third parties when selling investment funds. I expressly waive my right to delivery of such remuneration and agree that PostFinance may retain this as remuneration for the services carried out. The remuneration may change at any time. The latest overviews can be found in the document "Costs and sales remuneration" at [postfinance.ch/retirementplanning-information](http://postfinance.ch/retirementplanning-information). Sales restrictions: none of the funds offered by PostFinance may be offered, sold or delivered within the USA, or to persons who are US citizens, are resident in the USA, or are required to pay taxes in the USA.

## Conditions

### 1. Authorization

The customer hereby authorizes the foundation to take all the necessary administrative steps in connection with the above order with regard to the collective custody account and vested benefits account.

### 2. Processing

All purchases and sales of units are settled via a collective custody account opened in the name of the foundation.

### 3. Investment options

Investments are exclusively made in units of the investment funds approved by the foundation board. In particular, these investment funds are subject to the provisions of the Ordinance on Occupational Retirement, Survivors' and Disability Pension Plans (BVV2) as far as investment options and restrictions are concerned. Your customer advisor will be happy to advise you about the products available and the investment background.

### 4. Purchase and redemption (buying and selling)

**The account holder must always use this form to submit orders to sell or purchase units.**

Units cannot be purchased until it is absolutely certain that the vested benefits capital has been credited to the account holder's individual account (on receipt of full documentation and in compliance with all the procedural and substantive regulatory provisions).

The order remains valid for three months after receipt. If the retirement assets do not reach the foundation until after the expiry of this deadline, the order ceases to be valid. A new form must be submitted to the foundation in order to purchase the relevant securities.

Units purchased will be booked into the above collective custody account. The purchase and sales prices of the units correspond to the issue and redemption prices established by the investment foundation. Profits from the sale of units, if any, will be credited to the vested benefits account.

Sales and purchases are not processed directly or around the clock. This depends on various factors such as the holiday regulations of the office that manages the account and the place of processing (foundation) and/or the trading days / times of the relevant stock exchange.

I acknowledge that the purchase or sale of claims is usually executed within the space of five working days upon receipt of an order completed accurately and in full (with the risk profile enclosed).

**Share price losses may also result from securities investments. The foundation therefore only recommends securities investments for customers with a medium to long-term investment horizon.**

### 5. Duty of care

The foundation will carry out all administrative formalities in connection with this order to the best of its knowledge and belief, i.e. with the same care it uses in the conduct of its own affairs. The foundation assumes no liability with the exception of this duty of care.

### 6. Third-party remuneration

I acknowledge and accept that PostFinance may receive remuneration from third parties when selling investment funds. I expressly waive my right to delivery of such remuneration and agree that PostFinance may retain this as remuneration for the services carried out. The remuneration may change at any time. The latest overviews can be found in the document "Costs and sales remuneration" at [postfinance.ch/retirementplanning-information](http://postfinance.ch/retirementplanning-information).

### 7. Specific points

When adjusting vested benefits and retirement benefits, the foundation usually issues its instructions to sell investment fund units within five working days of approval of the payment request from the account holder. Following the death of the account holder, instructions are given as soon as the foundation has received written notification of his/her death. In this case, the foundation may not take the stock market price into account. The vested benefits account cannot be closed until all the units have been sold.

Units are sold in the following cases in accordance with the law:

- on realization of the pledge;
- if the new vested benefits institution requires the capital for an equivalent purchase;
- if a court order is issued following a divorce or legal dissolution of a registered partnership.

### 8. Validity of the order

This order form supplements the regulations for the vested benefits account and takes effect on 1 May 2013.
