Invest with PostFinance

We offer four individual investment solutions to support you in targeted asset growth. Whether you handle your investments yourself, would like comprehensive advice or wish to delegate your asset management to us – we have the right solution.

Advice and services

Your satisfaction is important to us. That's why we offer customer-friendly solutions and comprehensive service. Experience our innovative, digital advice. Additionally, our experienced customer advisors will also be happy to set aside time for a personal consultation with you.

Portfolio monitoring

Your portfolio grows, and we keep an eye on it. Depending on the investment solution you have chosen, we will notify you in the event of deviations and provide you with investment proposals or make changes to your portfolio directly – you can simply sit back and relax. This ensures that your portfolio stays on course at all times, even when markets are volatile.

Individual investment strategy

You are unique, and so are your investment needs. We determine your individual investment strategy and suggest the appropriate solution to go with it. Alternatively, we also offer experienced investors the opportunity to make all their decisions independently.

Our market view

The financial markets are constantly changing. For this reason, we consistently monitor developments on the stock exchanges and international market activity for you. The findings from our analyses form the PostFinance market view. This constitutes the basis for our portfolio monitoring and our investment proposals. Our market view is also available to all of our investors in the "PostFinance Investment compass" newsletter, if desired.
