

# E-com bundle, E-Payment Module for Checkout Flex and All-in-One

Online checkout with flexible and simple solutions

It's now very easy to set up an online shop in just a few clicks or with the support of a web agency. The right payment solution for your customers has to be integrated separately.

Our E-Payment Modules for Checkout Flex or Checkout All-in-One, as well as the e-com bundle, offer you three variants that can be integrated into your online shop quickly and easily as a plug-in or connected service.

## Why use the E-Payment Module for Checkout All-in-One?

For small retailers, we recommend the E-Payment Module for Checkout All-in-One. You benefit from only having to conclude one contract for payment methods and from receiving the preconfigured payment methods at a standard transaction fee of 2.5 percent.

We would be happy to handle the administrative work involved in concluding the contract for the various payment methods.

## Why use the E-Payment Module for Checkout Flex?

For medium-sized or large retailers, we recommend the E-Payment Module for Checkout Flex. You enjoy great freedom in your choice of acceptance partner and the range of payment methods. Via our Checkout back office, you can request quotations from the integrated acceptance partners and receive individual quotations directly, with conditions that vary from one payment method to the next.

### **New e-com bundle: combined payment with banking**

We combine payment and banking with our e-com bundle. You benefit from a waiver of the setup fee and an attractive discount for the Wallee/SnapSwap payment methods. Plus, you benefit even more, because we give you the account management and annual fee for the business account and your PostFinance Card for free.

Can be combined with terminals for in-store sales

The optimal variant is selected based on your requirements and the number of payments processed:

## Installation and integration (as at April 2025)

### PostFinance plug-ins

We offer plug-ins for the shop systems commonly used in Swiss e-commerce. The following plug-ins can be downloaded directly in the Checkout back office and connected to your shop system:

- JTL
- Magento 2
- OpenCart
- OXID
- PrestaShop
- Shopware
- WooCommerce

### Supported plug-ins from third-party providers

If you cannot find your shop system above, connection may be possible via one of the following plug-ins. The plug-ins can be found directly in your shop system.

- Drupal Commerce
- eicom easy-shop
- Freshpage
- Joomla with VirtueMart
- nopCommerce

### Connected services

The following SaaS (Software as a Service) solutions can be directly connected via the integrated connected services.

- Abacus
- Ecwid
- ePages Now
- Hostpoint Webshop
- Jimdo
- Payrex e-commerce tools
- PepperShop
- Shopify
- Wix

## Always by your side

Self-service support and answers to FAQs about payment methods, use of Checkout back office tools and installation of plug-ins can be found in the Checkout support area on our website.

### **Any questions? We're here for you around the clock.**

Our personal technical support is available to our Checkout customers around the clock on 0848 382 423 (max. CHF 0.08/min. within Switzerland).

#### **Contact options:**

- Telephone: around the clock
- E-mail: response within two working days<sup>5</sup>
- Messages in e-finance: response within two working days<sup>5</sup>

<sup>5</sup> After receipt of order, available during our opening hours on Monday to Friday, from 8 a.m. to 5 p.m.

## Support Plus

With Support Plus and an active Checkout subscription, you have the following advantages:

### **For queries about day-to-day business**

- Contact person reachable via e-mail and telephone
- Response time of max. 6 hours during our opening times (Monday – Friday 8 a.m.–5 p.m.)
