Product description

PostFinance

Staking

With staking, you can benefit from additional income on your cryptos by storing your cryptocurrencies and supporting the crypto network in the process.

Your investment needs

You are familiar with cryptocurrencies and want to make a return with staking. You value having complete control over your investments and prefer to act without additional advice.

What is staking?

Staking is an easy way to generate additional income with cryptocurrencies. In this process, cryptocurrencies are blocked on the blockchain and used to ensure transactions are accurate. Staking therefore directly helps ensure a blockchain is secure.

The benefits for you

- Start off with a manageable amount so you actively benefit from staking even with a moderate investment.
- Earn regular rewards, known as staking rewards.
- You decide for yourself how long you want to stake. There is no fixed term.
- Benefit from a secure PostFinance environment that guarantees the protection of your digital assets.

An overview of the most important services

Services	
Native staking	✓
Direct restaking of the rewards generated	✓
No fixed term [1]	✓
Technical support during bank opening hours	✓

Prices and conditions	
Staking fees [2]	20% off earned rewards, min. USD 1 per quarter
Minimum amount for staking	ETH 0.1

[1] The staking position remains staked for an indefinite period until it is cancelled by a customer order (unstaking order). The unstaking order can be initiated by the customer directly via the PostFinance App or in e-finance. Depending on the blockchain, unstaking can take between a few hours and weeks.
[2] The fees are invoiced quarterly and debited from the reference account in the account currency.

You can find our range of cryptocurrencies at postfinance.ch/cryptorange.
More information on the product can be found at postfinance.ch/staking.

Disclaimer

This information and these statements are for information purposes only and do not constitute an invitation to tender, a solicitation, an offer or a recommendation to buy, sell or conclude transactions for any cryptoassets or services or to perform other transactions. This information does not take into consideration the specific or future investment goals, financial or tax situation or particular needs of any specific recipient and is therefore not a suitable basis for investment decisions. We recommend that you familiarize yourself with the technical fundamentals of cryptoassets before purchasing them and consult your financial and tax advisor before making any investment. The price, value and returns on cryptoassets can fluctuate significantly and may lead to the loss of all capital invested. Investment in cryptoassets is subject to risks and does not guarantee the retention of the capital invested or an increase in value. All cryptoassets provided by PostFinance Ltd are unavailable to US persons and other persons whose domicile or tax liability is outside of Switzerland and will therefore neither be offered nor sold/provided to them.
