

“Payment by invoice” with eBill: For high conversion and reliable payment

Activate the payment method “payment by invoice” with eBill conveniently in PostFinance Checkout.

Combine the popular payment method “payment by invoice” with the benefits of eBill in your online shop. This benefits everyone: Your company can improve conversion and speed up incoming payments, while your customers pay conveniently in e-banking. “Payment by invoice” is already prepared in PostFinance’s Checkout solutions – all you have to do is activate it.

Why offer “payment by invoice” with eBill in your online shop?

Advantage for your customers

With “payment by invoice”, your customers only pay when the goods have arrived. This creates trust and often increases the value of shopping baskets and conversions. eBill makes it even easier: The invoice lands directly in the customer’s e-banking and can be approved there in just a few clicks – securely, conveniently and without media disruption.

Benefits for your company

“Payment by invoice” with eBill reduces payment defaults, as eBill invoices are paid more reliably than traditional e-mail invoices. At the same time, the payment term is shortened: with eBill, 99 percent of invoices are paid on time.

How does “payment by invoice” work with eBill?

- 1 Your customer orders goods in your online shop and selects the payment method “payment by invoice”
- 2 Your online shop automatically checks whether your customer already uses eBill
- 3 If this is the case, the invoice will be sent directly to the customer’s e-banking in your company’s invoice layout

Why offer “payment by invoice” with eBill via PostFinance?

PostFinance is an established network partner of eBill and offers you the payment method “payment by invoice” with eBill as part of the Checkout Flex or Checkout E-Com Bundle payment solutions. To set it up in your online shop, all you need to do is activate the “QR module” for a set-up fee.
