 **PostFinance**

Whatever business idea you're pursuing, PostFinance has the right products and valuable expertise to support you.

As a company founder or startup, you can benefit from our startup package and other exclusive conditions.

Startup package

Open a business account in CHF or EUR and use it free of charge for the first two years if you manage it in our e-banking solution "e-finance" or in the PostFinance App.

Tip: with the POS or e-com bundle, free account management is extended to three years!

Order your startup package today by going to postfinance.ch/startuppackage.

The startup package is only available online.

Practical expertise

At **postfinance.ch/startups**, you can find information on setting up and establishing a company and on the growth phase, all in one place. This will ensure you're well informed and ideally prepared right from day one.

With everything from business accounts and capital payment accounts to credit cards and payment solutions for points of sale or online shops, PostFinance provides company founders and startups with the right tools to hit the ground running.

We offer the following products in addition to our startup package
