

Digitize the way you send invoices

eBill, B2B e-invoicing and Paper Bill

Make sure you're ready to send digital invoices. We have the right solutions for you: B2B e-invoicing enables you to send invoices directly to your business customers' software (ERP); eBill allows to you send invoices to your private customers' e-banking; and with Paper Bill, we take care of printing and sending your paper invoices. A one-stop shop – everything via a single interface.

Make the switch to efficient and sustainable invoice mailing now.

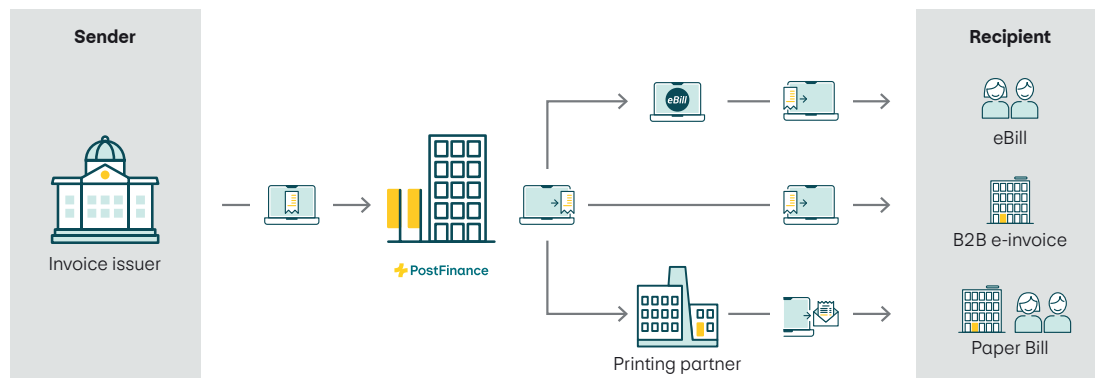

Does sending invoices take up too many resources in your company? Issue your invoices efficiently and cost-effectively in future with our Billing Solutions range:

- **eBill:** eBill enables you to send digital invoices to your private or business customers' e-banking, where they can be settled with ease.
- **B2B e-invoicing:** B2B e-invoicing allows you to send digitally structured invoices to your business customers' software directly from your software (ERP) or via our elnvoicing portal.

- **Paper Bill:** with Paper Bill, you can entrust PostFinance with printing and sending your paper invoices quickly and securely.

Three invoice types, one interface

PostFinance is your one-stop shop for all three invoicing solutions: eBill, B2B e-invoicing and Paper Bill. How does it work? You send your invoice data electronically to PostFinance through a single interface, and we make sure your invoices reach their intended recipient(s) reliably in the right format and channel.

The benefits for you at a glance

The advantages of sending invoices with B2B e-invoicing and eBill:

- Shortened payment deadlines, faster receipt of payment
- Cost savings (low mailing costs, easy payment collection)
- Less paper consumption
- High data quality (no enquiries)
- Less work on reminder processes
- Meets a growing need among customers

The advantages of sending invoices with Paper Bill

- Reduced costs and complexity
- The highest security standards
- Complete control over your paper invoices' processing status
- Structured return reports that make it easier to manage your customer master data

We will support you as you make the switch to sending invoices digitally.

Preconditions

To use eBill, B2B e-invoicing or Paper Bill, you should ideally work with a piece of software you can use to create your invoices, which you can then send to PostFinance via an interface. You can find a list of software partners that have an interface with PostFinance here: [Billing Solutions software partners](#).

Alternatively, you also have access to our eInvoicing portal. Here you can either upload PDF invoices or enter invoices manually (ideal for small invoice volumes) to send them as an eBill or a B2B e-invoice.

Useful information

We help your company to switch to digital invoicing solutions and to keep on growing your base of digital invoice recipients. And this pays off: the more invoices you send as eBills or B2B e-invoices, the less work and the fewer resources are required for invoicing within your company.

Use our best practice documents, which offer handy tips and templates on how to make the most of eBill and B2B e-invoicing.
