

Put your financial flexibility to work

Our money market investments with terms ranging from overnight to up to 12 months

PostFinance has a series of investment options for your liquid assets. Overnight, call money and fixed-term deposits are all flexible, short and medium-term money market investments that can be used to manage cash efficiently.

Overnight

Would you like to invest money overnight that you do not need until the next day at a higher rate of interest than on the postal account? Overnight is the right money market instrument with the shortest term.

All money market transactions can be made in foreign currencies.

E-finance	Overview and detailed list of your call money

Fixed-term deposits

With fixed-term deposits you specify the term yourself. This money market instrument is geared towards investors who want to invest their surplus cash in the short to medium term. For amounts below one million Swiss francs (or the equivalent value in a foreign currency) a standard interest rate applies; for larger amounts we are in the position to offer individual market rates.

For our money market investments the following applies: just call us.

At PostFinance you will find the right investment to match your term.
